

Happy International Women's Day 2016 by Dato Seri Jessy Lai

Happy International [battle camp hack](#) Women's Day 2016 to all my female friends, families & women out there!

This date is particularly important to all the women out there who has made great strides in life and has changed the world that we know today - From being a mother, to a useful member of the society, to the working class women that has made an impact in today's cultural, political, economic and social landscapes.

In the 21st century, we have seen a lot of public figures pledging for gender parity (#PledgeForParity), where the influential leaders are known to promote equality, respect and fairness in and out of the business world. In Mon Space Asia, we have always promoted the equilibrium in everything that we do.

Even centuries ago, through the teachings of Chinese proverbs, we have always been reminded to [gangstar vegas hack](#) maintain a high degree of integrity and respect for each and every one - Whether it is to a colleague or a friend, [soccer stars hack](#) a family or a stranger. And sure enough - Mon Space's leadership team consists of 60% female from all over Asia - China, Taiwan, Vietnam, Hong Kong, Indonesia & Korea.

Mon Space's #PledgeForParity goes beyond providing tools, rights or opportunities for all to succeed in our corporate culture; we go way and beyond the means of an average corporation to provide not only to the celebrated young working adult but also to children, and less fortunate members of our Malaysian [blitz brigade hack](#) society. Such as the Batu Grace Orphanage in Kulim, Kedah where Mon Space provides 5-in-a-row terrace houses for the children to stay in, education, support & enrichment through a range of support programs. With the commitment and promise that the children in return, work their way to become professionals & achieve greater heights in their life.

And not to forget - Malaysia has a good number of celebrated "Women of Substance" in our society from all walks of life, regardless of race or religion. Their contributions to society is immeasurable from the economic, social, political & cultural perspective:

Tan Sri Zeti Akhbar Aziz (7th Governor of Malaysia). Her financial genius, calm & firm-looking character has made strides international waters. One of her widely known award was in 2009, where she is rated as the World's Best Bank Chief, among many others.

The Late Yasmin Ahmad - A legend in the Malaysian film industry, very well known to have bridged cultural & religious differences among Malaysians through film. She [clash of clans hack](#) is an inspiration to many - Not limited to Malaysia, and survives in the minds of many until today.

Datin Paduka Marina Mahathir, a human rights activist on women, children and HIV/AIDS. She is well known for her outspoken character in the topics that she discuss, over the mass print & social media platforms. Her writings and works have inspired thousands in subjects that she preach.

Let us all celebrate this momentous [pixel gun 3d hack](#) time in the present where we recognise women for their contribution, and fight for those who are denied this right & freedom.
